Preparatory Quotes

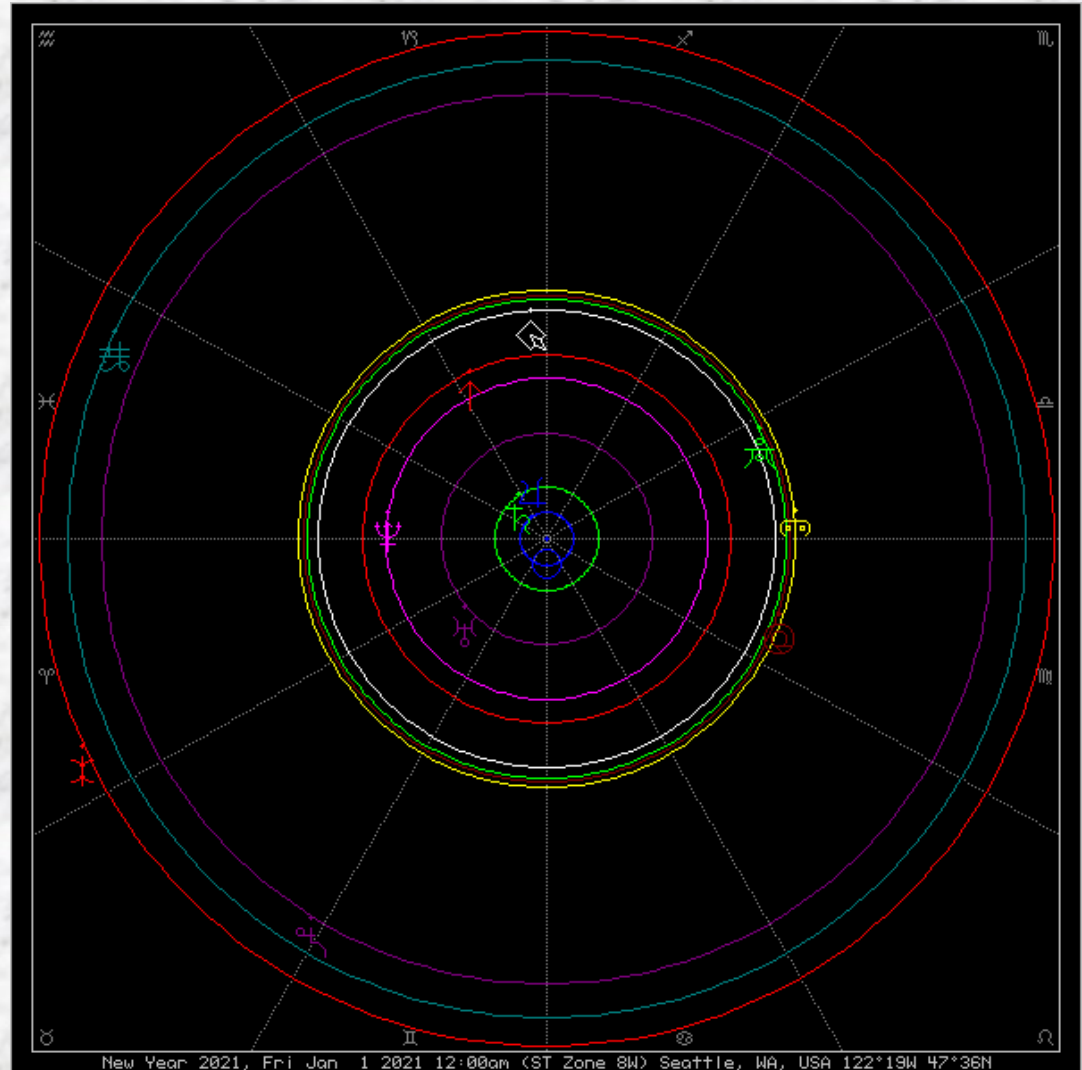

Dwarf planet Haumea

- ★ *"Astrologers must remember also that there are **several undiscovered planets** which are producing pulls and shifts and focusing streams of energy upon our earth..." (TWM p438-439)*
- ★ *"...the significance of the other planetary bodies (of great number) within the solar ring-pass-not. The entire solar sphere is full of such bodies, characterized by the same features as are the seven and the ten, and **each of them in some degree has an effect upon the whole**. There are more than 115 of such bodies to be reckoned with, and all are at varying stages of vibratory impulse. They have definite orbits, they turn upon their axis, they draw their 'life' and substance from the sun... This fact will be demonstrated towards the close of the century..." (TCF p793-794)*

Planetary Archetypes

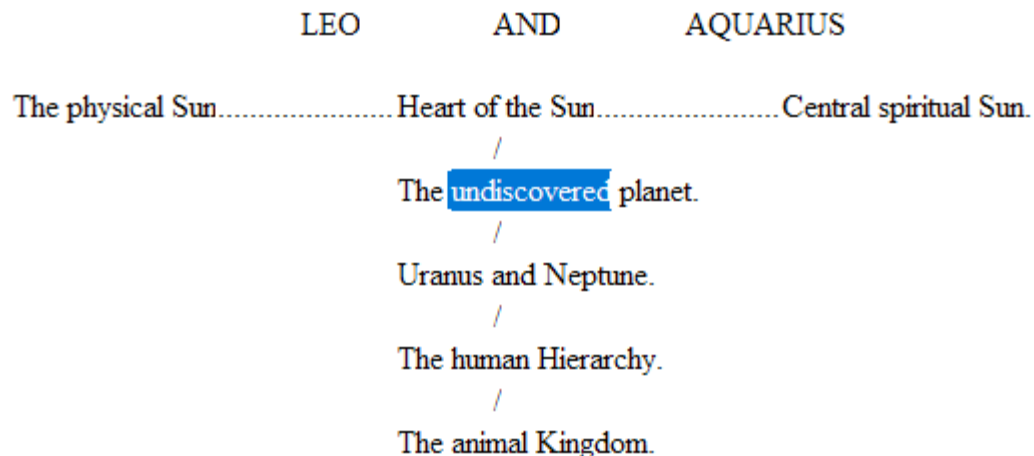

- ★ Solar system knowledge is and has been changing!
- ★ Uranus (1781), Neptune (1846), Pluto (1930) discoveries aligned with societal ideas and changes. Light, Love, and Power!
- ★ *"When a new planetary body is discovered, its archetype then becomes available to everyone in the world."* - Richard Brown
- ★ Expanding the "Ring Pass Not". Esoteric Ray 3 "Presented Attributes".
- ★ *"The planets... have existed all the time but have remained ineffective and consequently **undiscovered** owing to the non-existence of the needed instruments of response."* (EA p267)
- ★ Transneptunians discovered 2002-2007 reflecting more changes in consciousness.

You have, therefore, in this connection:

Charts of the cosmic lines of directed forces such as the above can be given for all the energies of the constellations and planetary forces, but this is the only one I choose, at this time, to indicate, because it is of major importance to humanity; the others might prove misleading, given man's present point of intelligent understanding and influence.

Such "blinds" are frequent and necessary in the occult teaching but they will be used less and less as humanity becomes more spiritually perceptive.

Seven great psychological Lives, qualified by seven types of life force, are manifesting through the medium of seven planets. Five other Lives express themselves through five planets, of which two remain to be discovered.
